

ENEMY FEELS HIS GRIP ON FRENCH SOIL SLIPPING; HUNS UNABLE TO REORGANIZE FORCES TO MAKE STAND

GERMANS CANNOT ARREST ONWARD RUSH OF ALLIES; WHOLE FRONT IS MENACED

It is Pointed Out That Never Since Beginning of the War has Such an Extended Series of Hammer Blows Been Directed Without a Break.

BRITISH REPORT CAPTURE OF CANAL DU NORD

By Associated Press.

LONDON, Sept. 4.—The British have secured a hold on the west bank of the Canal du Nord by taking Rumaucourt to the north of Sains-lez-Marquion, according to advices from the battle front.

PARIS, Sept. 4.—Between Ypres and Rheims, with General Mangin menacing the St. Gobain forest on the Chemin-des-Dames, with Generals Humbert and Debeney advancing on St. Quentin, and the Franco-Americans on the Vesle, with General Rawlinson before Peronne, General Byng before Lens, and General Plummer before Arras, the enemy feels the soil of France slipping from under his feet.

Commentators point out that in the present offensive continuity has been maintained lasting 46 days without a break and that not since the beginning of the war has such an extended series of hammer blows been directed, throwing the adversary into complete dismay. The enemy apparently is unable to reorganize his forces to make a stand capable of arresting the onward march of the allies.

FRENCH CONTINUE ADVANCE THROUGHOUT THE NIGHT

PARIS, Sept. 4.—French troops yesterday and last night continued to push back the Germans to the east of the Canal du Nord and between the Aisne and the Somme, says today's war office announcement.

In their advance the French took the Chapelle wood, northeast of Cheilly, and approached the town of Crèvecœur, three miles north of Noyon. North of the Aisne the French reached the outskirts of Coochy-le-Clateau and Juvencourt, and south of the river they drove further east from Lavilly and attained the suburbs of Clamecy and Bray.

On the Aisne the town of Bucy-le-long was penetrated. Prisoners to the number of 1,500 were taken. Along the Vesle parties of French troops crossed the river at several points.

BRITISH REACH THE CANAL DU NORD

LONDON, Sept. 4.—In their push beyond the Droocourt-Quantin line British troops had reached the line of the Canal du Nord, says Field Marshal Haig's official statement today. North of the Arras-Cambrai road they have occupied the town of Becourt, St. Quentin.

North of Peronne the advance has carried the British through the Vaux woods, above Moislans. Slight advances have been forced at other points.

Continuing their advance in Flanders the British are approaching Neuvechappelle and La Vencelle. In the same region they have gained possession of Sally-sur-Lialys and Nieppe.

CONDEMN GASOLINE WASTE

At Speedway Races and by Persons Who Patronize Them.

The Men's Bible class of the Methodist Episcopal church is the first organization of Connellsville to go on record as condemning the waste of gasoline in speedway races and attendance thereat.

At its meeting on Sunday strongly worded resolutions were passed urging the discontinuance of these races during war time when every material resource, and fuel in particular, should be conserved in every possible way as an aid in winning the war.

A verdict of not guilty was returned in court yesterday against William Jackson, colored, of Connellsville, charged with mischiefous mischief and pointing firearms. The prosecutor was Robert Flippin.

In the second charge of carrying concealed weapons the case was quashed on the grounds that it was faulty and did not specify the date the offense was committed. The prosecutor in this case was H. D. Turner of Connellsville.

French Steamer Sunk.

PARIS, Sept. 4. (Havas Agency).—The French steamship L'Impa, of 4,471 tons was sunk by a torpedo on the night of August 26 or 27 while on a voyage from Bizerta to Saloniki. Four Serbian soldiers out of the 359 persons on board are missing.

TWO SOLDIERS OF THE 110TH REGIMENT RETURN FROM OVER THERE; SCOTSDALE BOY HERO

At least two soldiers of the 110th Regiment who were in the fighting on the Marne in the battle beginning July 15, have arrived in America, bringing with them first hand news of the fight. Lieutenant Thomas B. Crawford of Company M, arrived in Greensburg early yesterday morning, and word has been received at Greensburg by Mr. and Mrs. Samuel Foy from their son, Sergeant George Foy, of Company C, 110th Regiment, that he has arrived in the United States and "will see you soon."

Lieutenant Crawford has returned to this country to report at Camp Dix, N. J., where he will assist in forming a new division for overseas service. Sergeant Foy did not tell his parents why he had been returned, but stated that he was "in the best of health."

The heroism of a Scottdale soldier, Corporal J. T. Van Horn, also of the 110th Regiment, is related in a cable to the Pittsburgh Dispatch from Lincoln Eyre, special war correspondent. The Dispatch tells of Van Horn leading a bombing patrol into No Man's Land, bombing two companies of Germans, about 200 men in all. In Van Horn's patrol were eight men, including himself. Van Horn's bombing attack took place near the Soissons-Rheims railway.

The 110th Regiment was at a critical point in the big battle and suffered heavily, according to Lieutenant Crawford. His company, M, from Lincoln Eyre, went into the conflict with 230 men and came out with about 100. The next day, through the explosion of a bomb in the midst of his company, several more were killed and wounded, leaving the company with but 72 men. Lieutenant Crawford brought the news that both "Cubby" Bair and Harrison Null, reported of

definitely as missing since July 29, had been killed by a bomb. He personally saw the wrecked headquarters, which had been bombed by enemy aircraft, and personally saw the graves in which the bodies were said to be buried.

He had been told of the injuries to Lieutenant Robert E. Herbert and Captain Wade T. Kline, of I company, 110th Infantry, but he had no personal information of their condition. He had been told that Capt. Kline suffered slightly from shell shock and that Lieutenant Herbert was in the hospital, rather sick.

Lieut. Herbert was in command of the Waynesburg company during the fight. That company also suffered severely. Lieut. Crawford reports, Crawford reports, suffered quite a lot in the battle, but more of the company were taken prisoner than were wounded.

Lieut. Crawford left his command in France on August 16. He will spend several days in and about Greensburg and will then report at Camp Dix where he will assist in forming a new division for overseas service and will help in training the soldiers for that work.

"Brig. Gen. Coulter was at the scene of the great battle in which local men took part just before I left there. He was well but seemed disappointed that he had not been with his old regiment," Lieut. Crawford said.

Lieut. Crawford came to America on a hospital ship which he said brought about 150 wounded soldiers to be nursed in this country.

In his cable the Pittsburgh Dispatch correspondent, writing of Van Horn's bombing party, said the raid took place five nights ago, the enemy being

encountered on the northern side of the Soissons-Rheims railroad, which forms the Hun front line.

This important proceeding on the part of eight Americans had a strange sequel. None of the eight was wounded although the Germans countered sharply with machine guns and fusillades, but one of the eight, Private Richard Morse of Harrisburg, Pa., fell into a shell hole and broke his ankle. When dawn came and the other seven set out on return to their lines, Morse was missing. It was thought that he had been killed. The succeeding nights the patrols searched vainly for his body.

On the morning of the third day he crawled into one of the centers of resistance and remarked with a broad grin: "That was the time I put it over on Jerry." For 96 hours he had lain in No Man's Land hiding by day in shell holes, painfully wiggling a few hundred feet toward the American lines by night. He had eaten nothing except a little hardtack and had nothing to drink but the rain water he caught in the mess cup he managed to have with him. His canteen had been shot away by machine gun bullets.

"The days were the worst time," he explained, "because I couldn't budge for fear the boche would snipe me. I gathered all the dead leaves I could reach, camouflaged myself as well as I could and just lay still until darkness came, then I would start traveling. I know I would get back alright sooner or later."

In a letter from Meade Tannehill, of Scottdale, printed in The Courier yesterday, he told of Jud Van Horn being safe. The letter was written on August 1.

Following an investigation into the automobile accident Monday night at the foot of Works' hill, Dunbar township, the man killed was identified as George E. WINNING THE WAR IN 1919 IS LARGELY DEPENDENT UPON THE CONNELLVILLE COKE REGION

The Government's Need for More Steel Can be Met Only by Increased Production of Coke; Several Hindrances in the Way; Men Must be Kept in the Industry and Given Substantial Help and Encouragement, Says Superintendent Boyd.

CONNELLVILLE HAS FURNISHED FINE EXAMPLE

"It occurs to me," says Benton Boyd, superintendent of the Trotter plant of the H. C. Frick Coke company, in a communication to The Courier, "that there has not been sufficient publicity given to some facts brought out at the meeting of the production committee of the Fuel Administration held in Uniontown last Thursday.

"There are two methods of getting things done, the Prussian and the American. We had an example of the efficiency of the American method, when Dr. Garfield called upon the automobile owners to forego pleasure trips on Sunday, and with most wonderful success. On the other hand we see the trial of the Prussian methods in the issue of food cards in Germany, where the rich get food and the poor starve."

"In producing coal and coke needed to win the war, we want to use the American method and have a Democracy remaining after we have won the war. To do so the only thing required is to give the facts to the people of the community, state the needs clearly and the situation will be met as has been done in respect to the food and gasoline regulations."

"At a recent meeting in Washington of the heads of departments in conference with the steel manufacturers, it was found that the only question in the minds of those present was, 'can we produce the steel necessary for winning the war in 1919?' After questions for war purposes were carefully checked, cut down in every way possible and totaled, it was found that with steel output at present volume, we would be short by the end of the year about 4,000,000 tons.

"Our statisticians have not been idle since the beginning of the war but have figured out how many men will be required to win the war next year; how many of them will be captured, how many wounded, how many will die of wounds, how many of disease, and how many killed in action. If the war continues beyond the end of 1919, the increases in casualties will be in proportion to the length of time the war may be prolonged. "If we can win the war quickly, it will mean the saving of thousands of lives. To prevent it dragging out, one thing is needed, and that is steel. It is just as easy to prove this by figures as it is for a life insurance company to establish the expectancy of human life by mortality tables and no more cold hearted to do so, for the facts will undoubtedly save lives."

"These facts were placed before the steel men and they were asked if they could be depended upon to furnish a greater output. The chairman of the committee, J. L. Raplog, was assured by the steel men that they could furnish the requirements upon one Continued on Page Six.

There will be over so many attractions including "the trenches," "Run the Gun," "The Questionnaire," "The Rookies," "The Hindenburg Line," and a Gypsy fortune telling booth. Everyone knows about Nanette and Rintintin. On the headlight of the general's car, dangling from the canteen of the Pollu, tied to the bayonet scabbard of the doughboy as he goes over the top, one always finds the two little buff and blue figures, boy and girl, that keep away all harm. Nanette and Rintintin must be a gift to be effective. One might buy or make a breche gas away, but if some one gives you Nanette and Rintintin you are forthwith "shot with luck." There are thousands of these little figures doing their bit in France and now your own Red Cross is offering you an opportunity to invest in a piece of luck for your particular soldier. Be sure to buy and buy early a little red white and blue "Uncle Sammie," as there is only a limited amount. Send it to your husband, father, brother or son in the service and if you do not have one of the aforementioned wear it for some one who does. It will bring him good luck in this country just as surely as Nanette and Rintintin brings good luck in France.

A show, "Grateful Fairies," for the benefit of the Red Cross was given by the following children: Eleanor Doyle, Jean Munk, Beatrice Horwitz, Anna Kinsbury, Anna O'Donnell and Vera Sapolsky. A sum of \$7.50 was realized and turned over to the Red Cross.

A show for the benefit of the Red Cross was given Monday evening by Elizabeth Dowling at her home in East Church place. Her aides were Eleanor Dowling, Eleanor Boslet, Angela Boslet, Ruth Reese, Ida Burkhardt, Eleanor and Evelyn Donnadieu. A sum of \$1.50 was turned over to the Red Cross.

The annual reception for old folks will be held Saturday afternoon, September 21, in the First Methodist Episcopal church. The reception will be in charge of the Epworth League and will be carried out along the same plans as heretofore. Committees have been appointed and an effort will be made to have the reception one of the largest and best ever held. This event is looked forward to with keen interest by the old folks who so greatly enjoy the kind hospitality of the young folks who leave nothing undone towards looking after their comfort and entertainment.

At a meeting of the entertainment committee for the convention of the International Sunday School Association of Fayette county to be held in Connelville this month, the apportionment of the delegates to the different churches was decided on as follows: First Baptist, Christian, United Brethren and United Presbyterian each to entertain 30; Lutheran, Methodist Episcopal, 50; Methodist Protestant, 34; Trinity Reformed, 12; German Lutheran, Trinity Episcopal, Church of the Brethren, South Connelville Evangelical, each six. This quota was raised according to the resident members of the churches. Residents of the city are asked to open their home and give lodging and breakfast to the delegates. A meeting of the executive committee will be held Monday night at the home of Mrs. Elizabeth Carroll, 208 South Prospect street.

FOUR RUNS SCORED ON FOUR PITCHED BALLS.

Chick Hartley, an old-time ball player, who is now a cop in Philadelphia, knows of a game in which four runs were scored on four pitched balls. He played in the contest, which took place in the New York State league in 1913, between Troy and Syracuse. Owens pitched for Syracuse. Cranston hit the first ball pitched for a home run. Mow, the second batter, smote the first ball delivered to him for a single. Luntley did the same thing on the first pitch to him. Hartley himself came to the bat next and swatted the first ball for a homer, making a total of four runs. Burchell then relieved Owens. Troy won the game, 5 to 4, in 13 innings. Hartley says this is a record.

HOW THEY HELP TO WIN WAR

Country's Youngsters More Than "Doing Their Bit" for the Country We All Love.

More than 2,400,000 boys and girls were reached through club work last year, according to a compilation recently made by the United States department of agriculture, which supervises this work in co-operation with the State Agricultural colleges. Of this number approximately 350,000 made complete reports, which show that they produced and conserved products amounting to \$10,000,000. In the 35 Northern and Western states \$40,000 boys and girls were enrolled. Of this number 100,025 had reported products valued at \$3,700,000. In the South there were 115,745 boys enrolled in the regular work, who produced products valued at \$4,500,000, and 74,508 girls who produced and conserved products valued at \$1,500,000. In the emergency club work in the South the club leaders reached over 400,000 boys and approximately 1,000,000 girls who produced and conserved products valued at more than \$4,000,000.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time, I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headache disappeared. I gained in weight and feel fine, and I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELINA B. LYNCH, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Meyersdale.

MEYERSDALE, Sept. 4.—Last Fri-
day, August 30, Mr. and Mrs. John
Stacer of High street celebrated their
golden wedding anniversary. In the
morning at 9 o'clock a high nuptial
mass was celebrated by Rev. Father
Brady in St. Philip and James Cath-
olic church. They were attended by
their son-in-law and daughter, Mr.
and Mrs. Joseph Grabenstein of Cum-
berland. The church was beautifully
decorated in green and gold and was
filled with relatives and friends. This
was followed by a 12 o'clock dinner
at their home attended by 55 persons.
In the evening a reception was held
from 6 to 10 o'clock and 290 of their
friends called during that time. The
home was artistically decorated in
gold and white and American flags.
Mrs. Stacer is a daughter of the late
Ambrose and Margaret Breig, who
were old residents of Meyersdale. Mr.
Stacer, a son of the late George
and Margaret Stacer, was born in
Cumberland. They were the second
couple to be married in the old Cath-
olic church on Main street. They
have lived in Meyersdale all their
married life and in their present
home 44 years. To this happy union
14 children were born, eight of whom
survive, namely: Mrs. Joseph Bra-
henstein of Cumberland, George, An-
nie, Ambrose, of Meyersdale; Francis
of Homestead; Clara and Lucy at
home, and Esther of Cumberland. Be-
sides a number of beautiful and use-
ful presents \$201 in gold was received
by the aged couple.

DOCTOR PRESCRIBED VINOL

For This Poor Mother Who Could
"Hardly Drag Around."

Glasgow, Ky., Ky.—"I am a farmer's
wife and was suffering from a nerv-
ous breakdown—loss of flesh and poor
appetite so I could hardly drag
around and do the work of my family.
My doctor prescribed Vinol. It not
only made me well and strong but I
have gained in weight." Mrs. S. M.
Gray.

The reason Vinol proved such a
wonderful strength creator in Mrs.
Gray's case is because of the beef and
cod liver peptones, iron and manga-
nese peptones and glycerophos-
phates combined in a pure, native ton-
ic wine, which makes Vinol the most
successful tonic. Laughery Drug Co.,

GERMAN FACES TROUBLE.

Uprising Similar to That of Bolshe-
viki May Come.

PARIS, Sept. 4 (Havas Agency).—
A dispatch from Bern, Switzerland
to La Matin quotes a prominent Swiss
citizen, coming from Germany, as
declaring that in the last six weeks
a formidable dissolution has swept
over Germany.

If the German military situation
does not improve, the informant said,
trouble that may surpass the acts of
the Bolsheviks in Russia menaces the
German empire.

Peacocks in the Bible.
Among the natural products of the
land of Tarsish which Solomon's
fleet brought to Jerusalem, mention is
made of peacocks (I Kings x 22 and II
Chronicles ix 21).

Really Amount to Nothing.
I don't like these cold, precise, per-
fect people, who, in order not to speak
wrong, never speak at all, and in or-
der not to do wrong, never do any-
thing.—Becher.

True Friendship.
"A true friend," said Uncle Eben,
"is one who tells you the truth in the
hope of helping you, but never for the
purpose of hurting your feelings."

Steady Hand Imperative.
A steady hand in military affairs is
more requisite than in peace, because
an error committed in war may prove
irremediable.—Bacon.

NUXATED IRON

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as nuxated iron—Nuxated Iron." says Dr. James Francis Sullivan, former-ly physician of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital. Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, formerly Secretary of the Treasury, and ex-Governor of Iowa; former United States Senator and Vice-Presidential nominee, Chas. A. Towse; General John L. Stem (Retired), the drummer boy of Shiloh, who was ser-geant in the U. S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere. A. A. Clarke.

At the Theatres

THE PARAMOUNT.

"THE LOVE SWINDLE"—A five part Bluebird attraction in which Edith Roberts, the captivating screen star appears in a charming role, is being shown today. Miss Roberts im-personates a man whom the ordinary cannot detect as a woman. The story is one of exceptional interest and provides the star with one of the best roles of her screen career. She is supported by a cast of unusual ex-celence and the picture is intensely interesting from the beginning to the end. An L. K. comedy in two acts is also being shown. Tomorrow Carlyle Blackwell and Evelyn Greely will be starred in "The Beloved Blackmailer," a World picture which portrays the laughable difficulties of an invalid in a health camp. The picture is without a doubt one of the most delightful features of the year. Probably no picture yet produced by any film com-pany contains the wonderful scenic beauty. The story is the possession of an odd plot and is one everyone will like. Mr. Blackwell is at his best and you will enjoy the actions of this six-foot young man who allows himself to be kidnapped and held for ransom. Miss Greely as Corinne is the kid-napper and she handles her job per-fectly. This is a picture for all mem-bers of the family. Friday and Sat-urday Mae Marsh will be starred in "All Woman," a Goldwyn feature.

THE ORPHEUM.

"THE WHITE MAN'S LAW" fea-tures Sessue Hayakawa, the popular Japanese actor supported by Florence Vidol and Jack Holt. The land is called "the white man's grave" and to it comes Sir Harry Falkland—to re-deem himself. He leaves his wife and

father hoping for his reformation. He meets Maids, played by Florence Vi-dor, and makes love to her. She is also beloved by John Chengin, an American and an Oxford graduate. An ivory deal is contemplated be-tween the two men. In Sierra Leone the unforfeitable sin is the wronging of a woman. To save himself because he has been seen under apparently compromising circumstances with Maids, he accuses Chengin. See this drama and learn how it ends. To-morrow all the proceeds of the day go to the Red Cross. Edna Bennett will appear in a very interesting pho-toplay, "A Desert Wooing."

No Chance for Them.
An Irishman who was driving a load of pigs to the fair was met by two -wells. One of them accosted him with the words: "Say, Pat, could you let us have two tusle seats?" To which Pat replied with a smile: "Well, then, I can't, for when I agreed with them that's inside, I had to promise that I'd take up no one that wasn't as good as themselves. I'm so sorry," said Pat.

Energetic High-Speed Executive to handle distribu-tion of 250 Motion Picture Theatres in this district of The Mayor of Filbert, an absorbing, \$200,000 eight-reel Triangle Special on the liquor question. Must know how to deal with local committees and to handle bankers and big business men and deal with the political situation with judgment and discretion.

One man—if he is big enough and fast enough—can organize and put this through. It is too im-mense—a too important a job to be handled in usual trade channels.

To fall in with the advertising plan and take full advantage of the present situation, local distributors must be taking contracts and setting dates on this picture, in every part of the United States, within fifteen days. So we are looking for the right man in 100 districts.

Large immediate profit for the successful ones. No matter what your present business interests—here's a chance for you and a few friends to get into the profit end of the Motion Picture business on your own account in your own district, that hasn't come before, wouldn't have come now but for the impos-sibility of letting this picture take its turn in the rou-tine of distribution—for Speed is Vital.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful, prescription known to druggists as Miro Pile Remedy.

It has been proved that so called ex-ternal remedies applied or inserted in-to the rectum cannot cure piles, and at the best only give temporary relief. This is also true of surgical operations, which simply remove them after for-mation, but in no wise acts on the source of the trouble.

This prescription, a though taken internally is not digested in the stomach, but is rapidly passed on un-changed to the intestines in a short time reaching the exact place where by its soothing, healing action it first allays all inflammation and then by

direct contact with all ulcers and piles, causes them to heal and disap-pear forever.

It's positively marvelous how speed-ily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operations. Really wonderful results have been accomplished.

The author of this amazing dis-covey desires all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy de-finitely cures even in the worst cases and he has instructed druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT: What is known as itching piles are not piles in the true sense of the word, although this con-dition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription—Adv.

To keep the world informed that America will demand a full measure of justice when the Day of Judgment comes. Neither of our correspondents need have concern that The Courier will neglect any opportunity to keep before its readers the injunction that there must be no word, suggestion, thought or desire for peace with an unconquered, unrepentant Germany on the part of any honest American. Only after Germany has been made to feel in all its righteous might the awakened fury of an outraged world; only after the armies of civilization have driven the minions of the Kaiser to ignominious defeat and forced them to beg for the mercy they denied the helpless and unoffending babes and mothers of France and Belgium; only after the unbending brutes who were the authors of all the war that has bathed the world in scalding tears, and their accursed military leaders, have paid on the gallows or before a firing squad the penalty of their heinous crimes, should anyone in America even hint at peace.

People of Switzerland who have recently seen Emperor Wilhelm declare that he has "greatly aged and that his hair is snow white and his shoulders stooped. The Emperor's eyes are feverish, his gestures abrupt and his face, which is severely lined and tanned, gives the general impression of a man suffering a great sorrow." What sorrow other than an unrelieved ambition has he suffered? He is the only father in Germany with six sons as yet untouched by the war.

To the present writing the young boys, all of them appearing to be young, refuse to affirm the interpretation of birthdays made by a member of the local draft board.

The stock exchange were worthy of even more than their hire.

Business and Bonds.

Business is good, thank you.

Almost without exception this may be said truthfully of any line. Today it is no longer a buyer's market. Just the reverse. The buyer is taking what he can get and is glad he can get it.

It is a seller's market of the most pronounced sort. And never has there been a greater demand at better prices.

And this despite the fact that nearly ten million of dollars have been invested in Liberty Bonds and four billions more taken from the public purse by taxation within the last fiscal year.

Never have conditions as a whole been better, the country more prosperous.

Pessimists a year ago predicted the worst of dire results as a consequence of the imperative tremendous sale of Liberty Bonds.

But the savings bank deposits have almost maintained their normal rate of increase throughout the country although people are spending more than ever before. And the average man has more of it to spend. His earning power in many cases has doubled.

All of which augurs well for the coming biggest anti-inflation drive of them all.

Folks no longer hesitate to buy Liberty Bonds.

They know they are the safest investment on earth. They know that back of them stands all the wealth of this country. They know that such investments will not adversely affect financial conditions. They know that every dollar so invested not only will stimulate industrial activity but will insure the continuance of American independence and speed the day of world freedom.

Americans are no longer apprehensive of the Liberty Bond.

They are for it strongly.

So much so that they're already saving up.

BETTER DAYS.

For months the news was grim and sad, we learned the word "reverse" only every day the news was bad, and next day it was worse. The gods seemed smiling on the Hun, while we could but retreat; he plied his sabre and his gun, and never met defeat. We took our bitter as they met, and took our sports as we were met. While Teutons played their winning game, and filled the air with fur, I used to hear the boys remark, "Just wait, the tide will turn! The prospects now look pretty dark, but we have faith to burn. Just wait until our Yankee lads get busy with the foe and shoot them through their liver pads, or where their whiskers grow!" And now the better days have come, the news is fit to read; we march along to beat of drum, and Hun are slain; we are no longer under the strain they were under now; the homey folks who till the land, the peasant and his frau? wonder how the German towns will stand the sickening thud? They liked the ups, and now the downs will show their sporting blood. I doubt if Teutons will stand the excitement of being shot. They cannot force a smile or laugh when they're inclined to weep.

Just Folks
Edgar A. Gossett

THE GOLFER'S YESTERDAY.

We stood together on the tee; He wished to make a game with me. I innocently asked him how He played, and what strokes he'd allow.

He told in the blandest way: "I took a hundred, yesterday."

So we began an even game, And he, without a trace of shame, Proceeded then my such to jar By making several holes in par.

And on the seventh hole he got A birdie with a perfect shot.

I did not whimper or complain, I did not crack beneath the strain. I took my usual five and six and put: "Beyond my speed I've surely played! That is the best I've ever made."

"Hush! Not a word," I made reply "I'm before I die!"

To meet some golfer on the tee, Who gets to make a game with me. But does not innocently say: "I took a hundred yesterday."

"I've played with 'clinky' men before, And some who've made a lower score; I've played with expert members, who do things I'll never learn to do, And, very curiously, they 'All took a hundred—yesterday!"

The Kaiser as I Knew Him For Fourteen Years

By
ARTHUR N. DAVIS, D. D. S.

(Copyright, 1918, by the McClure Newspaper Syndicate.)

But, perhaps, the most bitter denunciation I ever heard him make of Wilson was shortly after we entered the war. I had been summoned to see him, and when he entered the room he appeared to be in a towering rage. Indeed, his condition was so apparent that the Kaiser, who was also present, sought to excuse him with the explanation that he had been very much upset and had been sleeping very poorly, and she asked me to treat him gently, and tried to soothe him at the same time, but he told her to leave the room and resented her showing me that she petted him.

We said little while I was at work, but when I was through and was preparing to leave, the Kaiser stepped forward and said:

"Davis, Wilson is a real scoundrel!" My face flushed, I suppose, at this insult to our president, and my resentment was so apparent that the Kaiser immediately patted me on my right shoulder and apologized.

"I beg your pardon, Davis," he declared, in a quiet voice. "I know you're an American and I beg your pardon for hurting your feelings, but if you only knew, you would realize what a scoundrel your president is. When it comes to throat-cutting, Wilson should have his cut first!"

Whenever the sun shone for the Kaiser he grew so optimistic that he failed to pay the slightest attention to the clouds gathering on the horizon. After the Italian collapse, for instance, he was so enthusiastic about his military success in that arena that he failed to realize that America was slowly but surely forging the thunderbolt that was to strike him down.

"Now how foolish it was for your president to bring your country into this war!" he said. "Americans will now see, when it is too late, what fools they made of themselves when they elected a professor for president. Now America must pay the bills!" In this remark and others of the same import the Kaiser's expectation of being able to exact an enormous indemnity as part of his peace terms was clearly indicated, and he felt that America, having profited the most and suffered the least of any of the belligerent powers, would be in the best position to fill his depleted coffers.

The last time I saw the Kaiser when he mentioned the president was in the fall of 1917, shortly after Wilson had replied to the pope's peace proposal.

"Wilson is an idealist, and an idealist can accomplish nothing!" was his comment. "He went into the war that he might have a seat at the peace table but he will never get it. I shall prevent it!"

Of Wilson's peace notes, which were issued before America went into the war, the Kaiser remarked: "I think I am right, the others think they're right. America has all the money. If Wilson really wants peace, let him pay the bills and take care of the indemnities and the war will be over! It is very simple."

There was no man of modern times whom the Kaiser seemed to admire so much, before the war, as ex-President Roosevelt. The Kaiser was convinced that Roosevelt had prevented war with Japan by sending the American fleet around the world and showing that it was fit. This brilliant stroke of statesmanship, as the Kaiser termed it, was a topic that he referred to on several occasions. It was a forceful demonstration that was very much after his own heart.

"What I admire about Mr. Roosevelt most," he said, "is the fact that he has the greatest moral courage of any man I ever knew!" The fact that Mr. Roosevelt had given Germany's fleet twenty-four hours' notice to steam from Venezuelan waters didn't serve to lessen the Kaiser's admiration for him.

I heard him shower praise on Roosevelt many times and I haven't the slightest doubt that he was quite sincere.

After the war started, when Roosevelt showed very plainly that no matter what nice things the Kaiser might

have thought and said of him, he certainly didn't reciprocate the feeling. The Kaiser was very much disappointed. "I'm terribly disappointed in Mr. Roosevelt," he declared. "After the way my wife and I entertained him when he was here as our guest, for him to take the stand he has is very ungentlemanly. I gave a great review for him—the greatest honor I could bestow upon him and a thing which had never been done for a private citizen. He was not president then, you know. I used to admire him very much, but now I think the man has gone crazy and lost his mind. I never thought he would turn against us like that!" He did not seem to realize that a patriotic American owed allegiance to his own country.

In 1918 I asked him whether he had heard that Mr. Ford was on his way over from America in a chartered ship with a delegation.

"Who, Peace-Ford?" he inquired. I told the Kaiser what I had read of the Ford expedition.

"How can your country allow a man like that to do this thing—a man who has played no part in the politics of his own country and is entirely ignorant of international affairs—a man who, I understand, was formerly in the bicycle business and knows very little outside of business matters?"

"I haven't the slightest doubt Mr. Ford is a great business man," the Kaiser went on, "and I am sure he means all right, but what a mistake it is to allow a man so ignorant of world affairs to do a ridiculous thing like this!"

I told the Kaiser that it had been suggested in some of the American papers that if Ford really wanted to end the war, all he had to do was to pay Germany \$100,000,000 and buy Belgium back.

"One hundred million dollars!" the Kaiser repeated, and then after a moment's reflection, as though he had been turning over some things in his mind, "No, Davis, it will cost much more than that to get Belgium back!"

WINNING THE WAR IN 1919 IS LARGELY DEPENDENT UPON THE CONNELLSVILLE COKE REGION

Continued from Page One.

condition. That condition was if sufficient coke could be produced and transported to the furnaces.

"In other words the winning of the war in 1919 is dependent upon the Conneltsville coke region. What a responsibility! What an opportunity! What an honor has come upon us! The world to be made fit to live in because of us and by our efforts. Just as much honor here as anywhere at this hour. Will we live up to it? Will we do it? Let us pledge ourselves that we will, if God gives us strength!

"I am glad this city is named Conneltsville and not some other, because of the example of her whole-hearted men and women. No town, or city of any size has done greater work in comparison to her ability, in the support of the war work in this hour than has she. I would like to name her leaders, but I know they would prefer it not for they are not seeking personal rewards.

"A splendid illustration of this was seen Monday. While others, who, because of wealth, ability and position, ought to be leaders, amused themselves in automobile races and pleasures, the business men of Conneltsville were awake to the situation and went to a coke plant and worked and toiled to get a train load of coke to the furnaces, then donated their wages to the Red Cross. They are truly patriotic.

"The mining men and coke men have been negligent in one thing and that is that they have not made a direct appeal for help. If the people of the community know the facts and are made to realize the need I feel ample help will be forthcoming. There have been no more loyal men anywhere than the coke workers of the Conneltsville region. While a few have been negligent and careless and thoughtless the greater percentage of them have been most loyal. In substantiation of this I want to cite the region's yield of coke on July Fourth. No one can deny their patriotism after that day's record and during the extreme hot weather of the past weeks when work on a coke yard was a real danger yet they nobly hung to it. Now that the weather is milder they will do better. There are a few exceptions but a small percentage of the total and they are the irresponsible and the inept.

"However, the truth is the coke-workers and miners need help. They are doing what they can and are exerting themselves to the utmost but that is insufficient. The draft has taken heavy toll from the ranks of the coke-workers. Exemptions are being made more readily now but too late. From one small plant, Adelaide, 47 men have entered the military service.

"The coal and coke men have not had the support of the community they should have received. The government will not allow a miner to enlist, yet the same man can leave the mine and go where a vacancy has been made by the draft in some other occupation and defeat the purpose of the government by securing employment. This is true of the stores, shops, railroads and it is not helping the war game by taking men from the coke plants. Another thing that is hindering is the inefficient plants where the output is two or three tons per man. The same man could produce three times as much at a plant where the coal or coke is not handled so often before it is ready for shipment. We are somewhat hindered, too, by our men drinking to excess. This should be checked and the assistance of the hotelkeepers and clubmen and the breweries enlisted to that end.

"The government's cry is for more steel and the steel men cry for more coke, so that in the final analysis coke is to save our boys. They cannot advance against the Huns unless they can be followed with steel. Tracks must be laid as they go forward and there must be rails for the track. The government's rail order is for 29,000 tons per week. The mills are turning out 60,000 tons.

"In other words, it is coke versus blood, and it is up to us to take our choice. The men who are to be honored today are the men who are trying to win the war quickly; men who do not have their eyes wholly upon the gold they may gain.

"What is to be our choice? Will we furnish the coke, or will we be compelled to look upon our maimed brothers and sons, or have only memories of their faces as they left us? Coke or blood! Let us choose coke and end war forever!"

ITCHING IRRITATION EASILY CURED

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting, greasy ointment. Try Hekara, a pure and simple cream, that is guaranteed to contain no grease or acids and which is so clearly that it does not soil the linen.

Its power to instantly relieve any irritation of the skin and make it soft white and beautiful is almost miraculous. Not only do minor skin troubles like pimples, blackheads, acne, blemishes, etc., quickly disappear, but the worst ulcers or cases of salt rheum or eczema are cleansed and healed by this wonderful skin food.

In order that any one may try Hekara at small expense, A. A. Clarke is selling a liberal-sized jar at 35c, and in addition guarantees to refund the money if the treatment does not do all that is claimed for it.—Adv.

MORE KNITTERS NEEDED.

Demand Is Heavy on Account of Many Draftees Leaving.

Miss Harris, Clark, head of the Red Cross knitting department, sends out an appeal for more knitters. Sewers are especially needed. The Red Cross furnishes knitted articles to the draftees and on account of the large number of young men leaving for training camps the demand has been heavy.

Seventy-five soldiers were provided with knitted garments last week and the number to receive them this week will be equally as large. The department has plenty of yarn on hand and will gladly furnish it to all knitters who will call today at the Red Cross headquarters.

SUGAR FOR CANNING

Misunderstanding Regarding Preserving Supply Is Explained.

It has come to the attention of the officials of the Food Administration that some misunderstanding exists in the minds of the public regarding sugar for preserving purposes. Consumers may secure from their retailers whatever quality of sugar they require for bona-fide preserving purposes in lots of twenty-five pounds at a time.

Some retailers have had difficulty in anticipating their sugar requirements for the past month or more and many retailers have been running so close lately on sugar for ordinary use that they are reluctant to sell sugar for canning purposes. Special arrangements have been made by the Food Administration insuring all retailers having their sugar certificates redeemed immediately by County Food Administrators, thus enabling them to replenish their sugar stocks which have been depleted through honoring canning certificates.

Howard Heinz, Federal Food Administrator for Pennsylvania urges any housewife who fails to secure sugar from her grocer for canning and preserving to write to the County Food Administrator who will see that her legitimate requirements are taken care of.

25 MEN GO FROM MT. PLEASANT TO CAMP FORREST, GA.

Draftees Leave on Special Train Over Baltimore & Ohio Railroad.

EIGHT BOYS ARE ARRESTED

Eight, All About 16 Years Old, Picked Up for Playing Penny-Ante; School Board Holds Monthly Meeting; Water Question Is Discussed.

Special to The Courier. MOUNT PLEASANT, Sept. 4.—Twenty-five men were sent to Camp Forrest last evening over a special Baltimore & Ohio train leaving here about 5:15. These men showed no training they had been given at the armory in their march down the street, every man knowing his place and his command. Thirty-one are called for Thursday for Camp Greenleaf, but so far only 21 have been issued orders as this exhausts the list. The ladies of the Bohemian Red Cross unit furnished the lunches for the boys yesterday and the St. Joseph ladies will furnish them on Thursday.

Eight boys, all about 16 years old, were caught by the chief of police playing penny-ante and being disorderly. They were brought before the burgess and each boy was fined \$2.

School Board Meets. At the regular monthly meeting of the school board held Monday evening only routine business was gone over. The enrollment for the schools Monday is 1,189.

Discusses Water Problem. The members of the Light, Water and Fire committee of council with Borough Solicitor Eugene Warden, met with W. H. Clingerman at Scottdale last evening to discuss the borough water question.

FINANCIAL ASSISTANCE MAY BE GIVEN INDUSTRIES CURTAILED BY THE WAR

Times of Credit to be Extended by Banks to Prevent the Necessity of Enforced Liquidation.

Further details of the comprehensive and far reaching policy which the government is devising for handling industrial curtailments and restrictions in the future, and through which efforts will be made to safeguard the financial interests and welfare of the industries subject to these orders until they are annulled, have been made known in Washington. Official announcements in the matter, however, are to be expected for some time to come. As now contemplated by the government the levying of curtailments and restrictions will be accompanied with action under the supervision of the Treasury Department through which lines of credit with banking institutions will be extended in such measure as will prevent the necessity of liquidation, unless in extreme cases. This will probably include the extension of a moratorium of these industries.

One of the strong reasons behind this action is the fact that non-essential industries, so-called constitute one of the great taxing resources of the country, even in war time, and another reason is that the Federal Reserve Bank act provides for the acceptance of prime commercial paper liquidating within 90 days for rediscount at the Federal Reserve Banks. The credits of the country thus created by rediscount have been the basis for the issuance of reserve currency.

A representatives of the Treasury Department will probably sit in the meetings of the priorities committee of the War Industries Board in the future, and will give advice concerning the protection of financial interests of industries against which curtailment orders are levied.
